Géza,

Thank you very much for your note. Like you, I am glad to hear that everything now seems to be behind us. I am certain that we could never have accomplished this without the support of you and Rita. Please feel free to use me as a reference with future clients, and I will be happy to tell them about your terrific support and guidance.

I look forward to seeing you in Budapest at the first chance available and to enjoying a [REDACTED] and a Dreher.

Thanks again for your help and support.

Warm regards,

John
